

Village of Union Hill - Potential Locations for Cluster Box Units (CBUs) Rev: Pre-release

No:	Location	Thoughts / Ideas:	Notes:
1	Centered (N-S) on Village owned Lots (old Basham Lots) near sidewalk	A Handicap access approach and ramp would be required between the road parking and the CBU box location	It's likely that the sidewalks in the area would need replacement.
2	On Village Owned Lot Close to Lot Line of Café	Grant would replace the ramp in front of the Café with a new one that would be ADA approved and could service both the café and the CBUs.	Would need to be certain that the USPS would allow this configuration for ADA ramp sharing.
3	On South East Corner of South Village Owned Lot	A Handicap access approach and ramp would be required between the road parking and the CBU box location	It's likely that the sidewalks in the area would need replacement.

Would anyone like to consider building something similar to building in this photo to cover the CBUs? We could consider including 1 or 2 sides to protect from rain, snow and wind.
